

Dear <Patient Name>:

As your Primary Care Physician working with your WellCare Medicare Advantage Plan, I would like to personally invite you to take advantage of a unique opportunity to allow me to meet with you to discuss your health conditions and concerns, and review your medications and medical needs.

To maintain high quality and the most effective health care for you, I encourage you to call my office to set up an appointment for a comprehensive health review to make sure that all of your medical conditions and health concerns are documented and addressed. In addition to a thorough physical exam and medication review, any appropriate lab tests or other additional testing can be ordered to fully understand and further direct all of your health care needs.

While Medicare only covers this service once when you enroll as a Medicare beneficiary, your Medicare Advantage Plan covers this service at least once annually.

Please don't miss out on this opportunity to evaluate your current medical status....call my office to schedule your comprehensive health review, and put this on your calendar to do so at least annually.

I am working with you to keep you healthy and assist you in improving your health.

Sincerely,

Dr. <PCP>
